

Video for Egro ONE Touch

The Egro ONE Touch offers the possibility to play videos on the screen. With this feature promotions for customer can be played, but also for technical training it can be used.

1. Video Format

The video format is MP4 with a number of parameters, which have to be adjusted.

2. Video Editing Software

To produce a suitable video for the display of the Egro ONE Touch it is necessary to use professional video editing software (e.g. Adobe Premiere). With such software several parameters can be adjusted.

The main parameters to create a video unloadable on the ONE Touch are:

- NO AUDIO in the video
- VERTICAL Format: 640X480 pixel
- Frame per Second: 25
- LEVEL: 3

3. Educational Video

A video that shows how to set up a new video with the right settings is available on the Egro home page. This video is not edited for the display of the ONE Touch!

4. Use of Video

Videos only run automatically, during the preparation of a beverage, if the ONE Touch is configured to be in the SELF-SERVICE MODE.

Obviously videos can be played any time in the ONE Touch going into the video menu.
