

Egro Zero+

Daily Coffee and Milk Cleaning

Tap  on the interface rapidly 3 times to enter the cleaning menu. Select the Coffee and Milk Cleaning program.

Note: for Pure Coffee models (without milk refrigerator), select the Coffee Cleaning

When prompted, remove and empty the coffee grounds bin. Wipe grounds bin area. Replace grounds bin and close door.

Place an Egro Coffee Machine Cleaning Tablet in the chute on top of the machine.

Prepare solution by combining an Egro Milk System Tablet with about 1L (32 oz) of warm water in a container.

Place the container in the milk storage refrigerator, insert the milk line into the solution, and press "Enter".

When prompted, replace the solution with fresh water and repeat.

Clean the milk tube and hose with clean damp towel. Place milk back in refrigerator. Press Enter to finish cleaning.

DO NOT SHUT THE MACHINE OFF DURING CLEANING!

It will cause the machine to become disabled and may void your warranty. Shutting off the machine will not reset the cleaning counter. To unblock a machine that has been blocked due to lack of cleaning, the complete daily cleaning must be performed.
