

# STILE

An ultra-compact and quiet home coffee grinder capable of grinding precisely for any brew method. The Stile's small footprint and sleek design add a modern aesthetic to any coffee bar, while two dispensing modes and an easy-to-use touch screen interface make it a joy to work with.

Stile in Black

Stile in White

## FEATURES

### Touch Screen Interface

The bright, clear LCD touch screen interface of the Stile makes it possible to see grind time, activate or adjust presets, and change dispensing modes.

### Dual Dispensing Modes

Choose the functionality that works best for you. The Stile can be set to activate by inserting the portafilter or by tapping the touch screen. In either mode, choose between 2 timed presets or continuous dispensing.

### Micrometric Adjustment

Spin the dual-sided adjustment ring to set the grind size. Use the notches on the adjustment ring to achieve a specific setting or leave the ring between notches for stepless functionality.

## CONFIGURATIONS

**Dispensing Mode** Activate by portafilter or screen

**Grind Adjustment** Adjustment ring

## OPTIONS

Colors  Black  White
